 Subject: RE: Ecology & Environment, Inc. (E&E) Solvent Disposal

Jennifer,

I don't have the SIC code, Form code, Source code or the Origin code, but I believe the rest is filled out properly. I've also enclosed the MSDS for the thinner material from Rodda and a picture of one of the 24 original containers. Jeff Rodin, the EPA On-Scene Coordinator, is available to sign the manifest through Friday once you accept the profile. Also, I'll fax the signed profile form and Ecology Form 2 to you for reference.

Please let me know where we go from here. Thanks.
